

# Planting Trees for Carbon Forum

Industry leaders in planting trees for carbon will come together to present and answer your questions.

Interested in revegetating your property while taking advantage of carbon schemes available? Then join us for the SGLN Carbon Forum!

There are multiple programs and agencies working in South Gippsland, doing large scale revegetation projects on private land, and funding this work by selling carbon credits.

This forum is a chance for landholders to learn about opportunities for planting trees for carbon.

## What to expect

- Presentations from industry leaders: Greening Australia, GreenFleet and Cassinia Environmental
- Panel discussion where attendees can ask questions to the experts
- Opportunity to network
- Light lunch will be provided
