

Growing Stronger Together:

Tree Planting for Biolinks & Storm Recovery

Join Ecologist Peter Gannon, director and principle ecologist of Ecocentric, for a walk and talk to discuss the value of tree planting in our landscape.

With over 25 years of experience in ecological management, Peter will explain:

- what Biolinks are,
- why they are so important, and;
- how to set up your revegetation projects for the best success

Saturday 9 nov – 9am until 12 noon
Willarah Farm, Strzelecki Hwy
morning tea included

Please register via the QR Code

After morning tea, learn how to submit an applications for grant funding to plant trees on your property to help replace lost canopy trees and create corridors for wildlife after the storm.
